

Brand Guidelines

Brick & Charcoal - logo, color, type, icons, voice

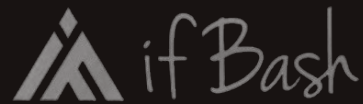

Edition 2026-07-27

Logo suite

The wordmark is custom hand-drawn lettering - never retype it, never substitute a script font.

Primary - on light

Reversed - on ink

Mono ink - print/legal

Stacked - avatars

Stacked reversed

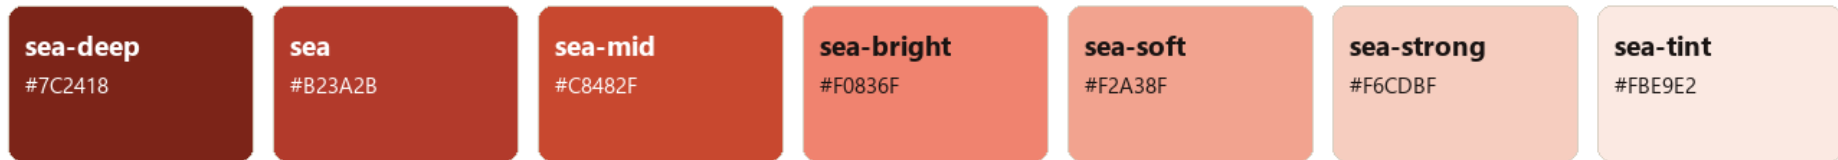

Mark - icons

Clear space: at least the height of the triangle on all sides. Minimum lockup width 110 px digital / 30 mm print.
Do not rotate, stretch, recolor, add effects, or place the gradient lockup on colored or busy backgrounds.

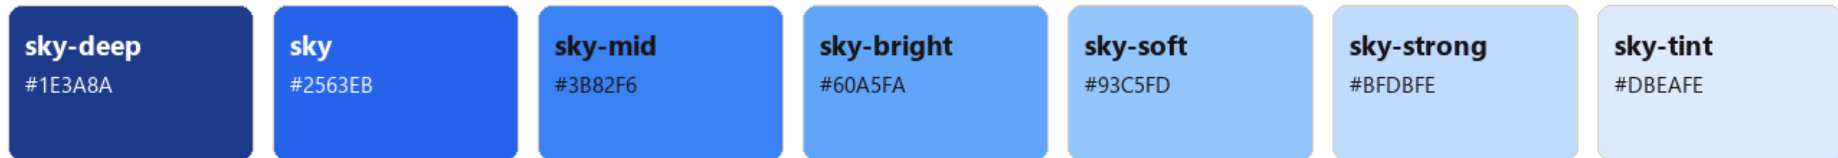

Color system

ifBash Brick & Charcoal - brand color system

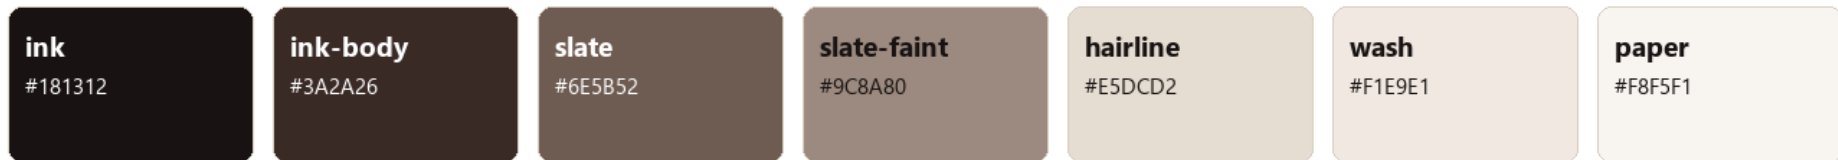

Sea - brick (ServiceNow practice)

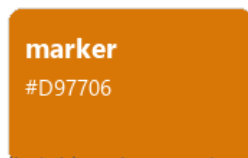

Sky - azure (AI layer)

Neutrals

Marker (hand-drawn strokes only)

sea (brick) = the ServiceNow platform practice. sky (azure) = the AI layer. Never use sky as a generic second color. bright values (#F0836F, #60A5FA) are the shine: glows, fills, and text on dark bands only - never copy on paper.

marker #D97706 - highlighter amber, hand-drawn strokes only. Never body text, never fills.

Typography - IBM Plex everywhere

We build ServiceNow.

Then we build the AI layer on top.

Semibold 16 - buttons, nav, labels, card titles

Regular 14 - body copy. Hierarchy is carried by weight and size, never a second family.

Plex Mono 13 - code, URLs, data, `ifbash.com`

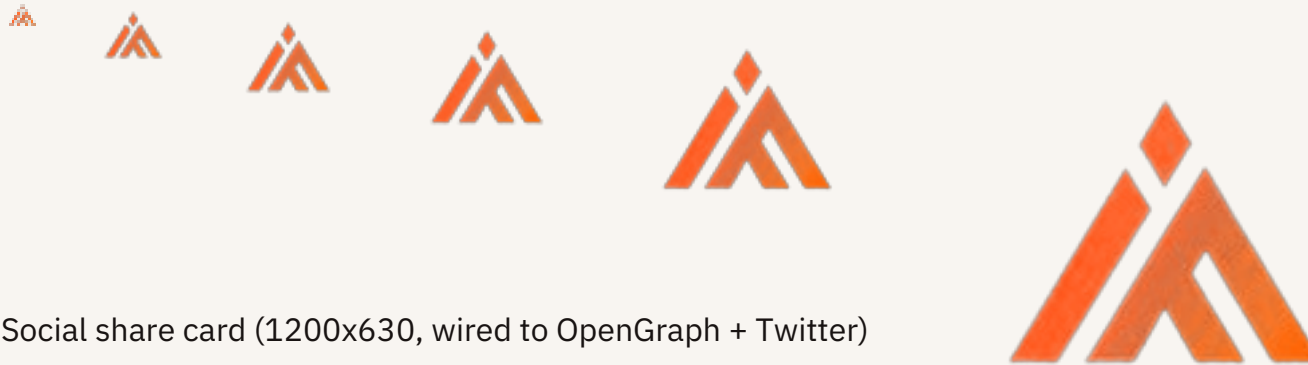

Display scale (fluid): xl 4.25rem / lg 3.4rem / md 2.75rem / sm 1.95rem, tracking -0.02em to -0.03em.

Arabic surfaces use IBM Plex Sans Arabic. No italics inside display headings - use the brick-ember accent gradient.

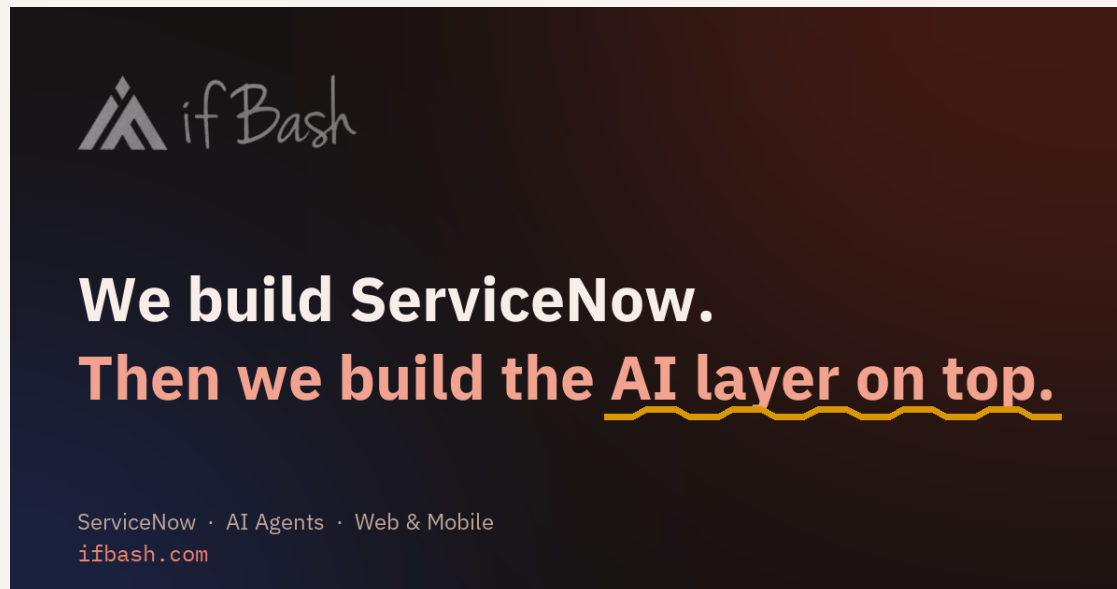

Fonts folder: static TTFs (Regular/SemiBold/Bold/Italic, Mono, Arabic) plus variable masters for design tools. SIL Open Font License.

Icons, social & voice

Brand icon sizes

Social share card (1200x630, wired to OpenGraph + Twitter)

UI icons: Lucide, 1.5-2 px strokes, sea or slate. Hand-drawn strokes (Scribble / CircleMark / SquiggleArrow) are brand language - marker amber, max two per viewport, always annotating real meaning.

Voice: direct, honest, engineered. Never claim outcomes we cannot show.
